1. This office action, in response to the amendment received 2/27/2006, is a non-final office action.
2. The finality of the previous office action is withdrawn in view of the new rejection to the claims stated below.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 13-22, 34 and 35 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 13-22, 34 and 35 disclose a symbol detection method. Claim 13 does not provide a practical application that produces a useful, concrete and tangible result. The result of claim 13 is fitting the data sample to at least one point of an n-dimensional real signal constellation. Also, this is the mere arrangement of data and is therefore non-functional descriptive material.
